

ClassCharts

Quick start guide

Getting started with Parental
Access

What is Class Charts for Parents?

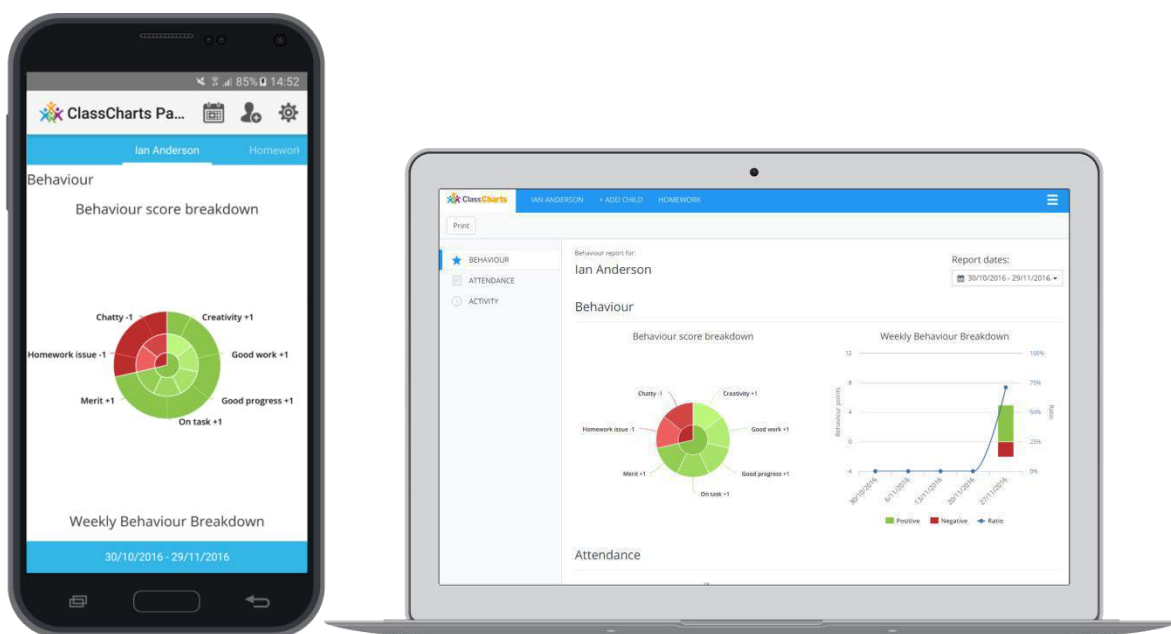

Depending on how your school has set our system up, you will be able to use Class Charts to keep track of your pupil's **achievements**, access **behaviour** reports, view assigned **homework** tasks and track scheduled **detentions**.

If you have more than one child at the school, or multiple schools, you can use the same parent account to view achievement data for all your children.

Class Charts for parents can be accessed via our **website**, or by our **iOS** and **Android** apps.

You can access the parent website and links to the parent apps at:

<https://www.classcharts.com/parent/login>

Parent Code

You should have received a **Parent code** from your school, which will look similar to the example code shown on the right.

This code is used to set up your **parent account**, which is covered on the next page.

Achievements and Behaviour

Behaviour breakdown

On the behaviour screen, you will be presented with graphs which represent an overview of your child's achievement and behaviour data within a [customisable timeframe](#).

To change the date range of displayed behaviour data, simply click on the [calendar icon](#) to select from the available presets or create your own custom date range.

Activity

25/11/2016

-1	Andrew Abbot Chatty awarded by Mrs A Abell.	15:37
+1	Andrew Abbot Good progress awarded by Mrs A Abell.	14:24
+1	Andrew Abbot On task awarded by Mrs A Abell.	14:24

Activity Feed

Below these graphs you will find a list of behaviour activity relating to your child. These display the [behaviour](#) that was awarded, [when](#) it was awarded, [who](#) awarded the behaviour, the [lesson](#) the behaviour was awarded in, and how many [points](#) the award is worth. The level of detail within each behaviour award depends on the settings that your school has enabled.

Attendance

Attendance					
	21 NOV	22 NOV	23 NOV	24 NOV	25 NOV
10A/Dr1	Green	White	Green	White	Yellow
10B/Bs1	Green	Green	White	Red	White
12A / Re	Green	Green	White	White	White

If it has been enabled by your school, you will be able to view your child's attendance information. Depending on your school's setup, this is either shown on a [day by day basis](#) for each of your child's [lessons](#) or as [AM and PM attendance for the day](#).

The attendance colour coded system is broken down as follows:

Green: Present

Yellow: Late

Red: Absent

White: No attendance information

Detentions

If your school has decided to enable the detentions view for parents, you will see a [Detentions](#) option in the top menu. Clicking on this option will display a list of detentions which have been set for your child.

Detentions fall under 4 categories: [Attended](#), [Not attended](#), [Pending](#) and [Upscaled](#).

Attended: Your child has sat this detention.

Not attended: Your child did not sit this detention.

Pending: This detention has not been sat yet.

Upscaled: Your child's detention has been escalated into another type of detention.

The screenshot shows a user interface for viewing detentions. It is organized into three sections: 'TODAY', 'FUTURE', and 'PREVIOUS'. Each section contains a list of detention cards. The 'TODAY' section has a pink card for 'Breaktime Detention' in Room 40 by Sean Abbey, dated 12/10/2017 at 11:00. The 'FUTURE' section has a yellow card for 'Lunchtime detention' in the Canteen by Sean Abbey, dated 17/10/2017 at 13:50. The 'PREVIOUS' section has a green card for 'Afterschool detention' in Room 55 by Sean Abbey, dated 5/10/2017 at 15:30. Each card includes a 'DETAILS' button.

The screenshot shows a popup window with a green header and a close button (X) in the top right corner. The content includes: 'Type: Breaktime Detention', 'Status: Attended', 'Time: 11:00', and 'Date: 10/10/2017'. Below this, it identifies the student as 'P.E.y9 - - Mrs. M Anderson'. At the bottom, it lists 'Location: Room 40', 'Length: 10 mins', and 'Reason: Detention'.

To view more information about a specific detention, click on the [Details](#) button.

This will bring up a popup that describes the detention, including the reason for the detention, the awarding teacher and scheduling information.

Adding / switching children

To add another child to your Class Charts account, click on the [add child](#) option in the website menu or the [add child icon](#) within the app.

You will then be asked for an access code.

A screenshot of a dialog box titled 'Add a child to your account'. The dialog has a blue header with a close button (X) on the right. Below the header, the text 'Please enter an access code to add a new child.' is displayed. There is a text input field with a cursor. At the bottom right, there are two buttons: 'OK' and 'Cancel'.

Next, enter your [parent access code](#) for the child you wish to add.

This code will have been given to you by the school and is unique for that pupil.

Once the parental code has been accepted, you will see the child you have just added as a [selectable option](#) in the menu.

Click on the pupil to display that child's behaviour and attendance data (if it has been enabled by your school).

If your school has chosen to share homework information, the homework tasks for all children on your account will appear within the homework tab.

Accessing Class Charts for Parents

Logging in to the Class Charts Parent app

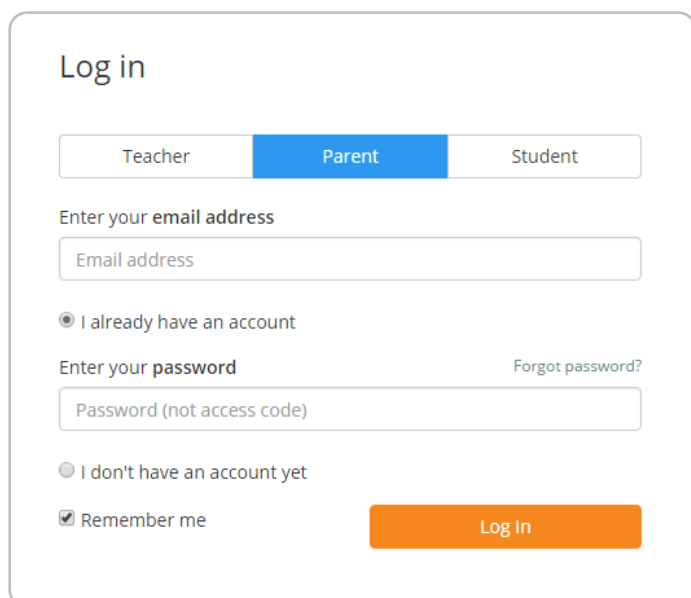

When you tap the parent app icon on your device, you will be presented with the Class Charts Login screen.

Simply enter the email address and password you used when creating your Class Charts account and you will be able to log back in.

If you cannot remember your password you can click on the [forgot password](#) link to receive a password reset email.

The screenshot shows the ClassCharts Parent app login interface. At the top, there is a status bar with signal strength, Wi-Fi, 58% battery, and the time 09:10. Below the status bar is the app header with the ClassCharts logo and the text "ClassCharts Parent". There are two tabs: "LOG IN" (selected) and "SIGN UP". The main form area contains an "Email address" input field, a "Password" input field, and a link that says "Forgot your password? Click here to reset". At the bottom of the screen is a large grey button labeled "LOG IN".

The screenshot shows the Class Charts website login page. The title is "Log in". There are three tabs: "Teacher", "Parent" (selected), and "Student". Below the tabs is a section for "Enter your email address" with an input field labeled "Email address". There are two radio button options: "I already have an account" (selected) and "I don't have an account yet". Below this is a section for "Enter your password" with an input field labeled "Password (not access code)" and a link for "Forgot password?". At the bottom left is a checked checkbox for "Remember me". At the bottom right is an orange button labeled "Log In".

Logging in to the Class Charts Website

To log back into your Class Charts account, first ensure that you have selected the parent option.

Next, select the [I already have an account](#) option and enter your login details.

If you cannot remember your password you can click on [forgot password](#) to reset it.

Settings

To access the settings menu for your parent account, select [Account Settings](#) from the 3 lines menu in the top right corner of the website.

If using one of the parent apps, you can access the settings menu by clicking on the [settings cog](#) shown on the right.

Your details

Full name:

Email address:

Email address is used for logging in.

Within the settings menu, you will be given the option to change your [name](#), along with the [email address](#) and [password](#) that you use for your account.

You can also change the displayed language, by selecting a different option from the [Language](#) drop down menu.

To change the timeframe that your account displays information in, click on the [date range](#) in the top right hand corner of the website. If using the apps, click on the [calendar icon](#). You will be able to apply [preset date ranges](#) or a [custom range](#) of your preference.

To set a custom date range, simply click on your start date and then your end date and click [apply](#)
